

DESCRIPTION:

Farmworld Tractor Operated automatic Potato Planter is efficient, faster and more cost effective for small as well as big farms and can be operated by single man. It has agitator to remove seed blockages and prevent double seeding through conveyor vibration mechanism. It ensures uniform growth, maturity and better yield and feasible for various soil types.

Technical Specification

Model	FWPP02	FWPP04
No. of Furrow Opener	2	4
No. of Ridge Maker	3	3
Row to Row distance (mm)	600-660	
Working depth (mm)	130-150	
Working width (mm)	1320	2640
No. of cups	2x34	4x34
Size of Potato Seeds	30 – 75 (cut or uncut)	
Hopper Capacity (kg)	240	420
Fertilizer box Capacity (kg)	80	120
Planting Capacity	1.25 – 2.5 acre/hrs.	
Plant to Plant distance (mm)	100-125-150-175-200-225-250-300	
Powered by	Wheels	
Weight (kg)	580 (Unladen)	880 (Unladen)
HP Requirement	60 HP+	70 HP+
